

GAS FURNACES

FF***LT80M

EcoNet® Enabled Upflow/Horizontal Gas Furnace

EFFICIENCY:
80% AFUE

The Fujitsu FF***LT80M Gas Furnace has all the right features to create a comfortable home for you and your family. Our furnace is also quiet, so you can stay focused on what matters most.

EFFICIENCY

A two-stage gas valve and a variable speed motor delivers the right amount of heat for a more comfortable home and a lower utility bill.

RELIABILITY

We're serious about the quality of our products. That's why our gas furnaces are engineered with the exclusive Direct Spark Ignition System which is the most reliable ignition system in the industry and ensures that your furnace will light right every time.

PEACE OF MIND

In addition to many features to ensure years of reliability, our gas furnace is also backed by a 10 year conditional parts and 20 year heat exchanger warranty.

CONTROLS AND ALERTS

The innovative EcoNet® control technology displays important alerts and reminders so your system keeps working at its best.

WE DID THE WORK SO YOU CAN STAY COMFORTABLE

Our gas furnace is designed to provide your home with reliable, quiet comfort for years to come.

HIGH PERFORMANCE

Two-Stage operation provides superior comfort by knowing when to switch into high gear, so there is no need for you to adjust the thermostat. The variable-speed motor uses less energy than a single-stage motor and is engineered for better dehumidification, which provides you with better indoor air quality.

RELIABILITY IS ESSENTIAL TO YOUR HOME COMFORT.

That's why we've built our gas furnace with the Direct Spark Ignition System – it's nine times more reliable than most hot surface igniters. It's also the same proven design used in commercial HVAC equipment and gas home appliances. Our heat exchanger is quick and easy to clean – when needed – by your local Fujitsu Dealer. A clean furnace is a long-running furnace.

QUIET OPERATION

is the result of a tighter door seal that helps eliminate whistling. We've also added rubber grommets on the motor mounts and a twist lock wire harness in the blower shelf. The result is an impressively quiet furnace.

FAST AND ACCURATE DIAGNOSTICS

are a big benefit to both you and your dealer. Our gas furnace features Diagnostics with a 7-segment alphanumeric LED display that simplifies troubleshooting. Just in case there's a need, service calls are faster, which ultimately saves you money.

SAVE ON YOUR ENERGY BILL

with a new gas furnace from Fujitsu. The FF***LT80M delivers 80% AFUE, which means 80% of the fuel in your furnace is converted to heat for more efficient comfort and savings for your home.

BENEFITS AT-A-GLANCE

EFFICIENCY:
80% AFUE

MOTOR:
Two-stage variable speed ECM

SOUND LEVEL:
Tighter door seals, rubber grommets and a twist-lock wire harness in the blower shelf ensure quiet operation.
