

GAS FURNACES

FF***TT96

Two-Stage Gas Furnace

EFFICIENCY:
96% AFUE

The FF***TT96 Two-Stage Gas Furnace offers one of the highest efficiencies available today. And it's ENERGY STAR® qualified – so, utility bills go down and you stay comfortable all year long.

MAXIMUM COMFORT

Two-stage operation and a constant torque motor offers a more consistent indoor environment, keeping cold spots to a minimum, while the constant torque motor delivers airflow consistently ensuring your comfort.

SAVINGS AND EFFICIENCY

A 96% Annual Fuel Utilization Efficiency (AFUE) guarantees you fuel savings year round. The 2-stage gas valve operates on the lowest setting for most of the unit's operation.

DEPENDABLE OPERATION

The FF***TT96 is designed with a direct spark ignition system – which is nine times more dependable than other igniters. You have peace of mind knowing you will have heat when you need it.

WE DID THE WORK SO YOU CAN STAY COMFORTABLE

Our gas furnace is designed to provide your home with reliable, quiet comfort for years to come.

COMFORT AND PERFORMANCE

The Two-stage heating design primarily operates on low-speed, only temporarily switching to high during peak cold-weather conditions.

QUIET OPERATION

The heat exchanger design provides improved airflow and reduces operating sound, making the FF***TT96 one of the quietest furnaces on the market. And because it's high-efficiency, your monthly energy bill will give you even more reasons to smile.

DEPENDABLE OPERATION

The Direct Spark Ignition is one of the most dependable ignition systems available today and is also used on ovens and stoves – appliances you rely on daily.

PROTECT YOUR HOME

Our gas furnace has a water management system and will shut off your furnace when a drain is blocked, preventing water spillage and potential water damage to your home. It also prevents seasonal start-up issues, which means fewer warranty claims. All this and great warranties means fewer repair bills and more cozy nights at home.

FAST AND ACCURATE DIAGNOSTICS

Our gas furnace features a 7-segment alphanumeric LED display that simplifies troubleshooting. Just in case there's a need, service calls are faster, which ultimately saves you money.

LIMITED WARRANTY INFORMATION²:

- Parts - 10 Years
- Heat Exchanger - Limited lifetime
- Conditional unit replacement – 10 years

BENEFITS AT-A-GLANCE

EFFICIENCY:
96% AFUE¹

MOTOR:
Variable-speed ECM motor
Two-Stage operation for more comfort

¹ Annual Fuel Utilization Efficiency (AFUE) measures the amount of heat delivered to a home compared to the amount of fuel that is supplied to the unit. Higher AFUE ratings reflect higher efficiency

² For complete details of the limited warranties, including applicable terms and conditions, contact your local contractor or go to www.fujitsugeneral.com for a copy of the product warranty certificate

³ Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.
