

AIR CONDITIONERS

FUJITSU

FO*17C

Two-Stage Air Conditioner

AVAILABLE SIZES:

2, 3, 4, and 5 ton

EFFICIENCY:

Up to 17 SEER / 13 EER

The FO*17C two-stage air conditioner offers solid technology and energy saving performance for ultimate home comfort in all seasons.

INCREASED COMFORT

The Two-Stage Copeland Scroll™ UltraTech™ compressor provides more precise temperature control and humidity levels for increased comfort.

QUIET AND EFFICIENT

Our new air conditioners are designed to perform both efficiently and quietly, delivering home comfort you can count on when you need it most. Several features contribute to quiet operation and better overall performance. It starts with the **composite base pan** which, not only adds to quiet performance, it also helps eliminate corrosion. Enhanced mufflers and improved refrigerant tubing design are additional features that contribute to the overall performance. For added strength, the louvered panel on the exterior does an outstanding job protecting the inside.

CURB APPEAL

The FO*17C Air Conditioner not only looks good, the powder coat paint system provides a lasting professional finish.

TWO-STAGE COMFORT

A single-stage unit runs at one speed, but the Two-Stage Copeland Scroll™ UltraTech™ compressor modulates between two speeds – high and medium. It will operate on medium speed most of the time, providing more precise temperatures and lower humidity while also reducing energy use.

RELIABLE AND LEGENDARY

① Two-Stage Copeland Scroll™ UltraTech™ compressor technology makes the FO*17C Series as efficient as it is durable. The ② optimized fan orifice also contributes to quieter operation, optimal airflow and better overall performance. Simply put, you get efficient comfort that lasts a very long time.

A QUIETER AND MORE DURABLE UNIT

Starts with our smart new ③ composite base pan. The design helps eliminate corrosion and adds to quieter performance. Extensive UV testing was done to ensure that the base pan stays black for years to come. Our enhanced mufflers and improved refrigerant tubing design also contribute to a quieter, more reliable operation.

CURB APPEAL

Is not lost on our new FO*17C Series. Our air conditioners look as good as they operate. Modern cabinet aesthetics allow your unit to put its best face forward, and a powder coat paint system provides a lasting professional finish.

FAST AND ACCURATE INSTALLATION AND MAINTENANCE

Means your savings start with the installation of your new unit. Our FO*17C Series Air Conditioners are built to go in fast and easy. The control box is also easy to access, and a roomy diagnostic service window means maintenance calls go quickly, saving you time and money.

BENEFITS AT-A-GLANCE

COOLING EFFICIENCY:
Up to 17 SEER/13 EER

SOUND LEVEL:
Features like our smart new composite base pan contribute to quieter operation

AVAILABLE SIZES:
2, 3, 4, and 5 ton

COMPRESSOR:
Two-Stage Copeland Scroll™ UltraTech™ compressor for enhanced comfort and greater efficiency

WARRANTY¹:
Parts - 10 Years

LIMITED WARRANTY INFORMATION¹:

Parts - 10 years

¹ For complete details of the limited warranties, including applicable terms and conditions, contact your local contractor or go to www.fujitsugeneral.com for a copy of the product warranty certificate.

² Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.
